Estimated Unaudited Net Returns

The estimated net return information presented below is being provided to investors in the Sculptor Master Fund, which is managed by subsidiaries of Sculptor Capital Management, Inc. (collectively with all of its subsidiaries, the “Company” or “Sculptor Capital”). The following information is not necessarily indicative of the Company’s anticipated financial results.

	November 2021 Net Return Estimate (1)(2)(4)	November 2021 Year-to-Date Net Return Estimate (2)(3)(4)
Sculptor Master Fund	-4.12%	+4.80%

- (1) Monthly net return is based on management’s estimates as of the date hereof for performance of the Sculptor Master Fund from November 1, 2021 to November 30, 2021. Such data may change upon completion of the Company’s month-end valuation procedures, and any changes could be material.
- (2) Net return represents a composite of the average return of the feeder funds that comprise the Sculptor Master Fund. Net return is presented on a total return basis, net of all fees and expenses and includes the reinvestment of all dividends and other income. The performance calculation for the Sculptor Master Fund excludes realized and unrealized gains and losses attributable to currency hedging specific to certain investors investing in Sculptor Master Fund in currencies other than the U.S. dollar.
- (3) Year-to-date net returns are based on management’s estimates as of the date hereof for the performance of the referenced funds from January 1, 2021 to November 30, 2021. Such data may change upon completion of the Company’s month-end valuation procedures, and any changes could be material.
- (4) The monthly net return and year-to-date net return estimates for the performance of the Sculptor Master Fund exclude the returns of investments that the Company, as investment manager, determines lack a readily ascertainable fair value, are illiquid or otherwise should be held until the resolution of a special event or circumstance (“Special Investments”). Special Investments in the Sculptor Master Fund are held by a small percentage of assets under management in the fund. Inclusive of these Special Investments in the Sculptor Master Fund, the monthly net return and year-to-date net return estimates for the performance of the Sculptor Master Fund are -3.97% and +5.46%, respectively. These net returns inclusive of Special Investments are presented on a total return basis, net of all fees and expenses (except incentive income on unrealized gains attributable to Special Investments that could reduce returns on such Special Investments at the time of realization) and includes the reinvestment of all dividends and other income.

Estimated Unaudited Assets Under Management

In addition, the Company is disclosing to investors in the investment funds that it manages that, as of December 1, 2021, the estimated unaudited amount of assets under management was approximately \$37.4 billion, which reflects a net increase of approximately \$0.2 billion since November 1, 2021. The Company’s estimate of assets under management is inclusive of performance for the month ended November 30, 2021 and capital flows from November 2, 2021 through December 1, 2021, and includes approximately \$643.1 million attributable to the closing of an aircraft securitization, whose management fees are currently rebated as a result of investments from other funds we manage, resulting in no new management fees from this securitization, as well as approximately \$0.3 million of distributions and other reductions to investors in certain funds.

Assets under management includes assets attributable to the Company’s multi-strategy, opportunistic credit, real estate and equity funds, Institutional Credit Strategies products, and other alternative investment vehicles it manages. Management fees and incentive income earned on assets under management may vary depending on the asset class, commitment period, amount of capital committed by investors, and other factors related to a particular fund. Assets under management includes investments by the Company, its executive managing directors, employees and certain other related parties, and a portion of these affiliated assets under management are not charged management fees and are not subject to an incentive income calculation. Additionally, to the extent that a fund is an investor in another fund, the Company waives or rebates a corresponding portion of the management fees charged to the fund.
